Did you know...

Up to 9 out of 10 patients visiting Emergency Departments at peak times are there because of an alcohol-related incident.

Don’t just be a statistic. Help us to help you.

If you attend an Emergency Department staff might ask you a couple of simple questions about your night out or the nature of your injury.

This will enable us to understand more about alcohol-related incidents in this area, helping us to improve your health and to make your local community a safer place to live in.

The information you share will be confidential.
