There are two other booklets in this picture series.

To find out more visit www.capt.org.uk
We can help you keep us safe when we’re out...

- **Hello!** If you’ve got a baby or child like us, this booklet is for you.
- **Why?** Because it’s here to keep us safe near roads and in the car.
- It tells you about some of the ways we can get hurt in an accident.
- And it tells you how to try and make sure that we don’t.

The dangers we’ve chosen are the ones we’re most likely to get hurt by.

- Out and about
  - Running into the road
  - Crossing the road
  - Out in the dark

- Riding in the car
  - Strapping us in
  - Getting us out

Turn over to find out more...
It's fun to go out but...

- We may try to walk or run ahead.
- We need you to look after us near roads so we don’t get run over.
- As we get older we need you to teach us how to cross the road.
- In the car, you need to see that we are safely strapped in.
- Remember, we like to copy you, so make sure you always do the right thing.

Think about road safety!

- Every year, lots of children like us are rushed to hospital because we’ve been hurt in road accidents.
You need to keep us safe...

- We like to come with you when you go out.
- We know you're often in a hurry.
- So we are making it as quick and easy as we can.
- Look at a page with a sad face. Sad faces show you how children like us can get hurt.
- Now look at a page with a happy face. That's how to keep us safe.
We could get badly hurt when we are out and about...

Hold onto us tightly near roads.
Get us across the road safely.
Don't push prams or buggies into the road unless it's clear to cross.
Make sure car drivers can see us.

Keep us safe when we're out...
I might run into danger.

Keep tight hold of me near roads so I don’t run into danger.
