You and Your Baby

0 - 1 year
Foreword

Every effort has been made to make sure this book gives the most up-to-date medical advice available at the time of publication.

If you are not sure about something to do with your baby’s care and well-being, always check with your Midwife, Doctor or Health Visitor. They will be the first to know if advice about looking after your baby changes in important ways.

The information on rights and benefits is correct at the time of printing, but may also change in the future.

Any important changes will be made to the text at the next reprint.
