When it comes to cancer, there are 4 key signs to look out for:

1. Unexplained blood that doesn’t come from an obvious injury
2. An unexplained lump
3. Unexplained weight loss, which feels significant to you
4. Any type of unexplained pain that doesn’t go away

Chances are it’s nothing serious, but finding it early makes it more treatable. So if you notice any of these signs, tell your doctor.
