Water-wise activity sheet

Saving water is really important. You can help save water by following simple water saving tips, like turning the tap off when brushing your teeth.

Here’s your chance to have fun completing the activity sheet. The activities will show you how much water you use every day and you’ll find out about saving water at the same time!

Spot the difference

How observant are you? Look closely at the picture on the left, then study the picture on the right to find eleven differences.

The human body contains between 40 and 50 litres of water.

Water facts did you know?

It costs less than £1 per year for one person to drink eight glasses of tap water every day - it would cost nearly £500 for the same amount of bottled water!

Kielder reservoir holds enough water to fill 2.5 billion baths!
